

G. William James is one of the leading training professionals for handheld computing and mobile technology in the United States for retail, medicine, sales, business and real estate.

Among REALTORS®, James is internationally recognized for teaching the smartphone's technology as the ultimate REALTOR®, tool. His workshops emphasize the ease-of-use and intrinsic value of the smartphone for the sales, consulting and managing professional.

He is a contributor to Realty Times and New Jersey REALTOR® Magazines on PDAs, smartphones and mobile technology. He has presented to the National Association of REALTORS® Conference in the Technology Learning Center on numerous times, and is a highly popular presenter at the association level and real estate technology forums.

His company, Handheld Computer Solutions, conducts specialized training seminars for companies and real estate organizations throughout the United States, the Caribbean and Canada. James resides in an Atlanta suburb with his family.

Monmouth County Association of REALTORS®  
Education Committee Presents:
